

BUSINESS ARCHITECT

Old Mutual seeks a suitably qualified individual for the abovementioned career opportunity in Cape Town:

As Business Architect you will be responsible for:

- designing the Old Mutual business model, based on simple common-sense business concepts
- building and managing a knowledge model to represent the business and driving the operation of the business from the knowledge model
- ensuring the flexibility and re-usability of the business model
- providing thought leadership
- providing technology recommendations based on business needs
- designing the business in conjunction with the business owners, based on the fundamental business concepts
- synthesising and distilling designs
- influencing business strategies to create a 'future fit' organisation through awareness.

A position of this caliber requires:

- a BCom or relevant Bachelor's degree
- an MBA or Honours (advantageous)
- 5 years' relevant industry experience in a similar role
- business architecture/design experience
- experience in project management
- IT knowledge
- an understanding of the Lean Methodology and proven ability to apply and demonstrate the application of the Lean methodology
- an understanding of the financial services industry and applicable legislation (advantageous).
